

Draw the linear lines listed below:

$$y = x + 13$$

$$y = -x + 13$$

$$y = x - 13$$

$$y = -x - 13$$

$$y = x + 8$$

$$y = -x + 8$$

$$y = x - 8$$

$$y = -x - 8$$

$$y = 13$$

$$y = -13$$

$$x = 13$$

$$x = -13$$

cut at  $y =$  and  $x =$  lines

Connect these points in order that they are listed:
